Please describe a summary of work undertaken by the SAC to improve student achievement and school performance.

During the 2022-2023 school year we continued to share our P-2 (3) literacy initiative plans and progress with our SAC. We reported reading updates and successes each term. Over the year, we shared information on our professional development focus on Literacy (Reading P-3 / Writing P-5) and Math computational Fluency.

We also shared our SSP goals and strategies. We discussed our short cycle goal setting, planning model and provided updates on progress with our goals. Our Council members also shared in conversations around our school's well-being goal and strategies, our well-being

survey results from the 2020-2022 survey and our school programming plans supporting well-being. We also shared our plans on preparing our students for the grade 3 Provincial assessments this year.

I am delighted to report that we also reviewed information on whole school activities, fundraising, field trips, and the return of the Spring Fair. Our SAC members helped us to determine what could work in our community when reintroducing fundraising post Covid-19. They also shared their ideas on fair costs for field trips. During our last meeting, we reported our school configurations, staffing, and facilities rental dates. We also shared and update on all of the end of the year activities including: Primary Orientation, Grade five activities, Field day, etc. We are very fortunate to work with such a thoughtful and engaged SAC and value their support and input.

Please list any significant milestones and success stories that the SAC would like to highlight.
